My Life and the Whole World Looks so Much Better Now

July 23rd. 24 after being confined to my home and bed most of the time for a year I went to Mr. G. W. French, graduate Optometrist who made a very thorough examination of my eyes and frankly told me that it was my eyes that was causing all of my troubles and that he could help me. His glasses did it all—and even more than he said they would. It did not seem possible that my eyes was the whole cause of my troubles.

But it's all over now and those \$22.00 glasses and his good advice has been worth more than a \$1,000.00 to me.

Let me again thank you for kindly advice and service.

Yours Sincerely,

Mrs. Lou Rowe
