INTRODUCTION

This is the first in a series of Burial Records for Lenawee County, Michigan. It is a project that has long been awaited.

The Lenawee County Family Researchers, a Genealogical Society has for several years been walking our cemeteries and recording the burials, so as to bring to you, the family researcher, new, updated and hopefully complete records of the burials in our county.

This is a HUGE undertaking by a small group of volunteers. We foresee that each township will have a book of burial records, we have 16 townships here in Lenawee County. Several of our larger cemeteries are so large that it will require a book for each.

The records contained herein will be a combination of sexton records and gravestone readings by our members. In some cases there is additional data that one of the compiler's felt obligated to go "find" and include. Death indexes and obituaries, and other sources have been examined when one of the volunteer compiler's felt they could "fill" in some missing information.

There is no set order of publication of the townships, they will be published as they become available.

We apologize in advance for any errors, as we know there will be some. Please notify us of any errors and we will correct our records. Thank you and enjoy.

Compiler's Preface

Before using the information in this book for research purposes, there are a few things to keep in mind. Most notably, the information recorded here should always be verified by other sources. Tombstone inscriptions are known to be inaccurate in many cases, the spelling and the dates depending of the ability of the stone mason. We have also found many inaccuracies in the older Sexton's records and in many cases the dates on the Sexton's records do not agree with the dates and names on the tombstones.

All information in parentheses is not part of the tombstone inscription, but has been taken from other resources such as the Sexton's records, City Hall burial records, obituaries, etc. This information should always be verified by another source before being used for genealogical purposes.

Also, the information recorded after the birth date may be the death date or the burial date. Again, this information should always be verified.

There are many unmarked burials in the cemeteries and those have been included when records were found. We have attempted to include military information where possible. There is one Revolutionary War soldier buried in Oak Grove Cemetery (Jonathan Seeley, 1758 - 1839, Lot 187 Old Part) and many Civil War veterans. Graves of veterans of the Spanish American War, World Wars I and II, the Korean Conflict, and Viet Nam as well as the Revolution and Civil War are flagged by the American Legion Post No. 368 each spring.

Any mistakes in transcription or anywhere in this document are unintentional.

The use of abbreviations sometimes were required to fit the data to the format. They are:

GAR - Grand Army of the Republic
DAR - Daughters of the American Revolution
SAR - Sons of the American Revolution
WRC - Women's Relief Corps

NM - no marker

(2) - two markers for individual; usually a footstone or a military stone with a family stone

(NLN) - no last name

(NOD) - no other data

y - years, m - months, d - days

w/o - wife of

d/o - daughter of

s/o - son of

h/o - husband of

(o) - Obituary can be found in Stair Public Library; Jennie Gillis collection.

*Information in parentheses - Information not found on tombstone; found in other sources such as sexton's records; not necessarily accurate.

THANKS TO

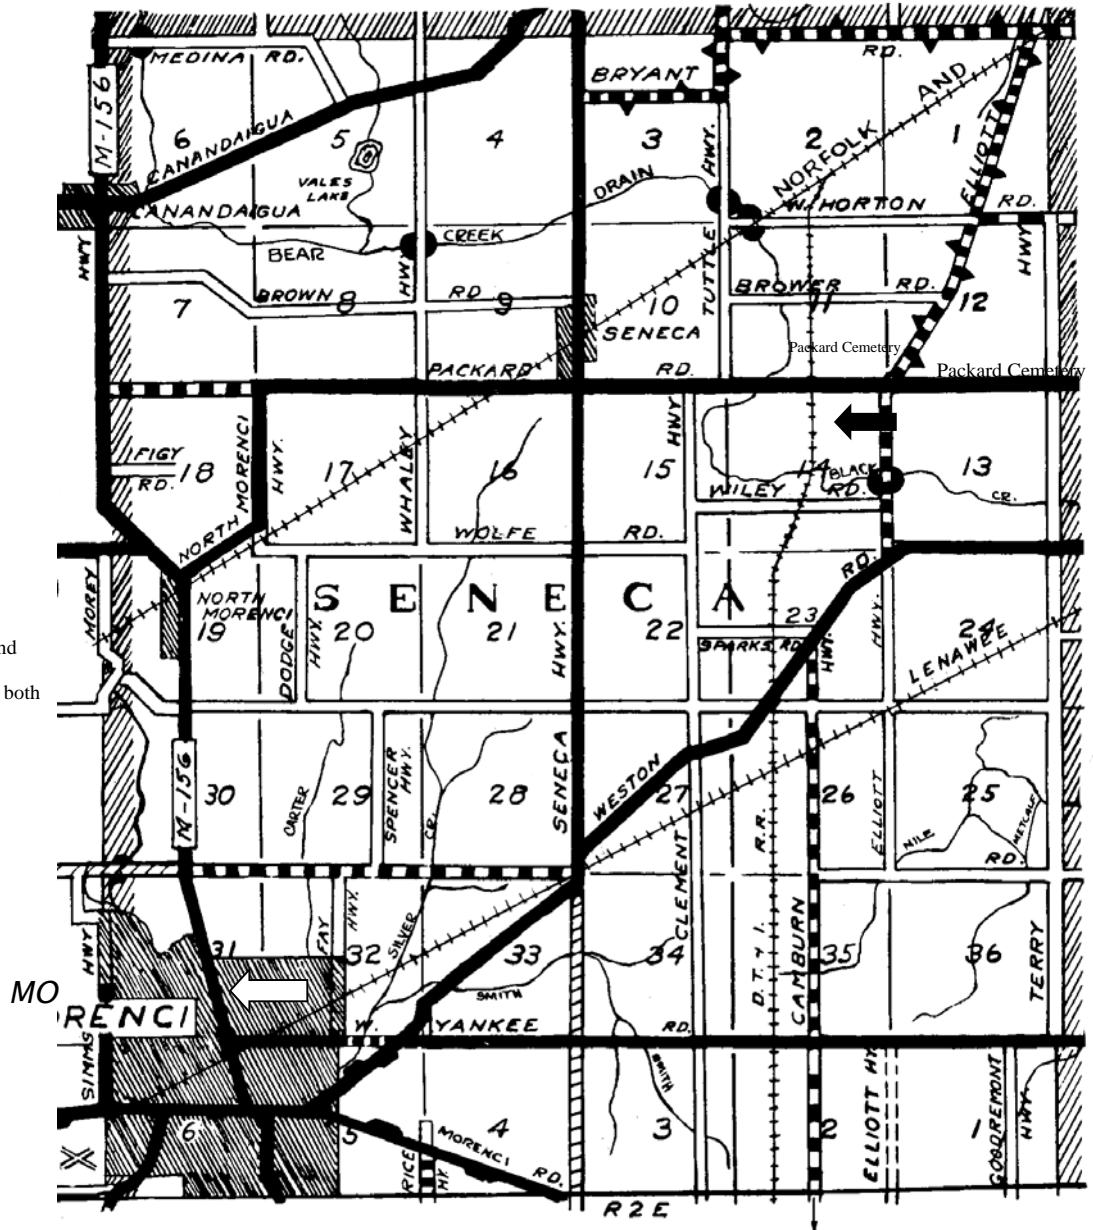

This work is the result of hundreds of hours of work by our membership. They walked each cemetery, sometimes several times, sometimes in the heat, sometimes in the cold, and always fighting off the bugs and mosquitoes. They sat for hours and recorded data from the sexton and township records. They then spent many more hours typing into computer data bases. Then they checked and re-checked the end results.

This is a very dedicated group of people, and they cannot be thanked enough for the hours they worked and dedication with which they approached this project.

Special thanks go out to Mary Teeter, Clyde Wright and Dee O'Brien for their work on this volume of Lenawee County Burials. Thanks to the staff of the cemeteries and the township officials for assisting us.

Oak Grove Cemetery - In 1875, the Common Council of the Village of Morenci purchased part of the Jonathan Salsbury from his daughter, Charity VanAkin for \$1,971.25 for the purpose of a burial ground. The first interment was that of Anna Brown in February of 1876. In 1906 a stone chapel was erected at the main gate. The metal posts bearing the name Oak Grove Cemetery were replaced by stone pillars. These pillars were constructed from the flagstone sidewalks removed from the city streets. In 1908 a mausoleum was built in the south part. In 1943 the Superintendent of the cemetery stated that the original area was once a fair ground with a large oval race track which was used to build up the layout of the present cemetery. In 1954, the building was condemned by the State and the bodies were re-interred in the cemetery grounds by the city. There have been three additions to the original cemetery; the Tuggle, the Sutton and the Kennedy Additions.

Directions: This cemetery is north of the town of Morenci, on Route M 156, .3 mile north of the Old Morenci Cemetery and south of Mulberry Highway, on the west side of M 156. See map.

Oak Grove Cemetery Notes
 There was not a map available for the Kennedy Addition.
 If you look carefully, you can see the shape of the race track which the cemetery was built on, in the "Old Part".

Old Morenci Cemetery - According to "Our Journey in Time"; Morenci Bicentennial Committee; 1976; pg. 64, this was the early cemetery within the city limits, known as the Old Cemetery. It was used by residents of Seneca and Medina Townships as well as Morenci Village and occasionally by residents of Chesterfield and Gorham Townships in Ohio. There are no interment records for this cemetery, but it is thought it was in use as early as the mid-1840's, Jephtha Whitman being interred there in 1847. This cemetery was originally plotted with a wide drive around the south and east sides. Later an addition was made to it on the north from Dr. James Sweeney's land. During the 1943 reading of the cemetery headstones, Harriet Cole Clark Bowen stated, "As stones have fallen they have been corded up at the sides of the plot. As no man was available, my project is the upright stones only." It is not know if these stones were ever replaced, destroyed or removed to an unknown site.

Directions: This cemetery is north of the town of Morenci, on Route M 156. It is located on the north corner of Wilson Street on the east side of M 156. It is about .3 mile south of Oak Grove Cemetery. See map.

Packard Cemetery

Map to Packard Cemetery

Packard Cemetery is on the south side of Packard Road, .2 of a mile west of Elliott Highway.

Packard Cemetery, formerly Porter Cemetery

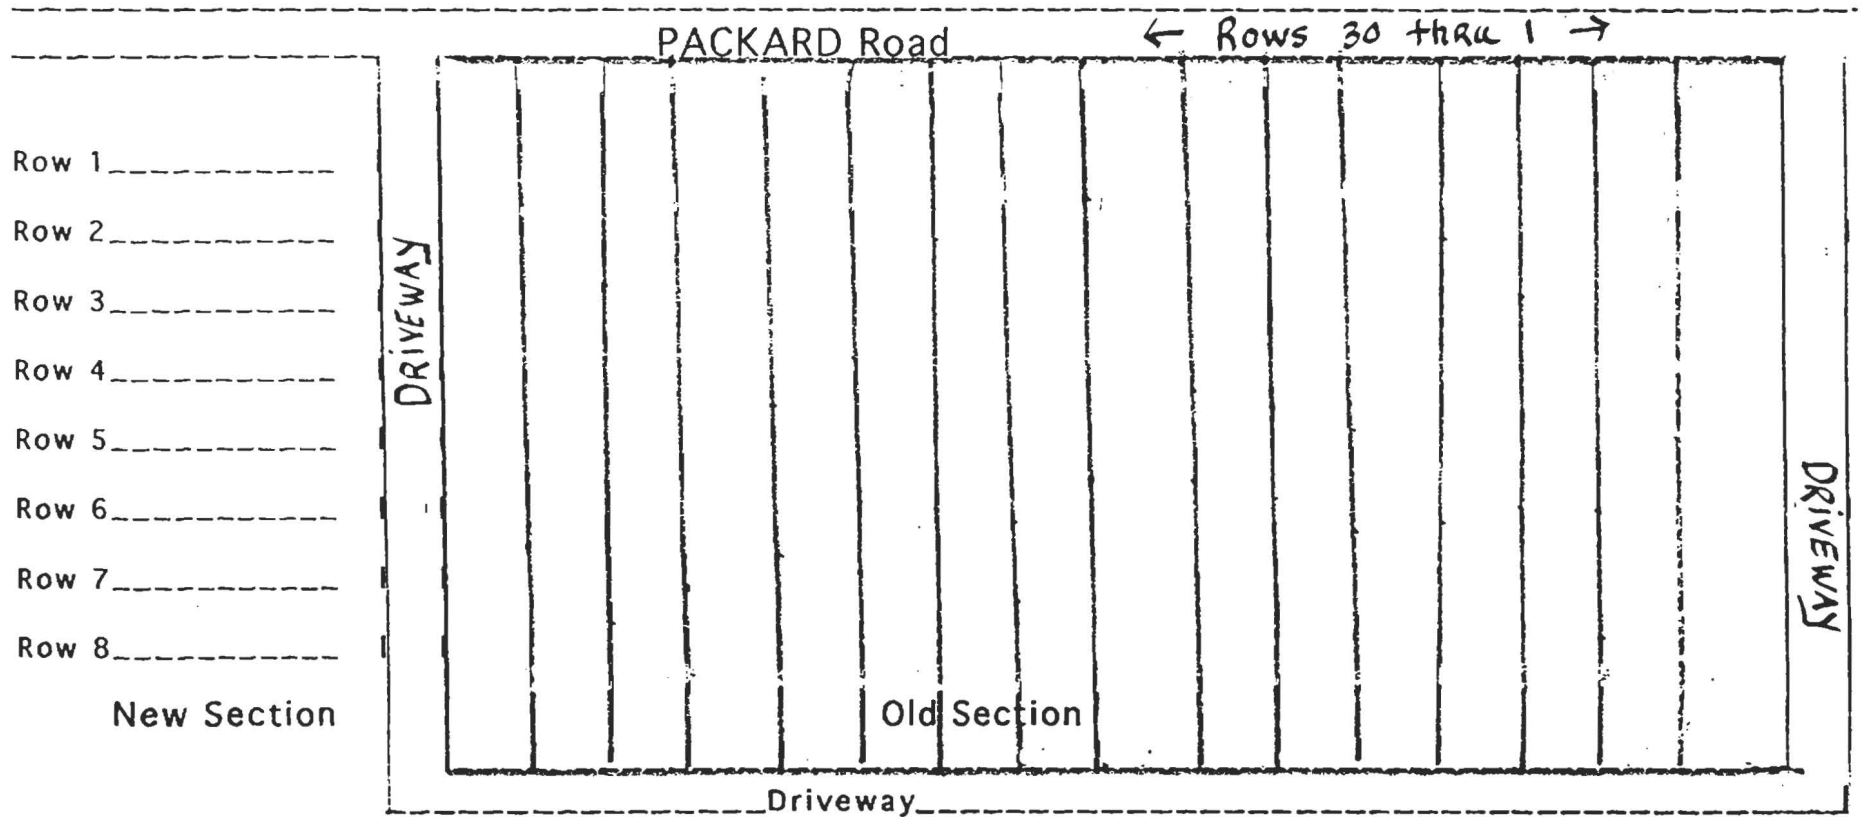

Packard Cemetery, formerly known as Porter Cemetery
Photo taken from Packard Road, arriving from Elliott Highway, looking southwest.

Packard Cemetery, formerly known as Porter Cemetery: According to Harriet Cole Clark Bowen, who worked so hard on cemetery readings during the 1930-40 era for the DAR, the original plot was part of the Porter farm, additions were made from the Packard property. A railroad station called Packard was situated nearby. One of the first burials found in this record of the burials is that of E. J. Hayward, who died 09 September 1840. For many years, J. C. & S. K. Porter owned the land to the west of the cemetery and Marvin A. Packard owned the property to the north and surrounding the cemetery. Marvin A. Packard (d. 1919) and his wife, Elsie (d. 1915) are buried in the cemetery. The records for Oak Grove Cemetery in Morenci indicate the burial of the ashes of Sylvester Porter (d. 1929) and the remains of John C. Porter (d. 1903) are interred there.

Directions: Packard Cemetery is located on Packard Road, Section 14 of Seneca Township. It is .2 of a mile west of Elliott Highway, on the south side of Packard Road.
